To provide visitor access through to the Waipa River and Mangapiko Stream

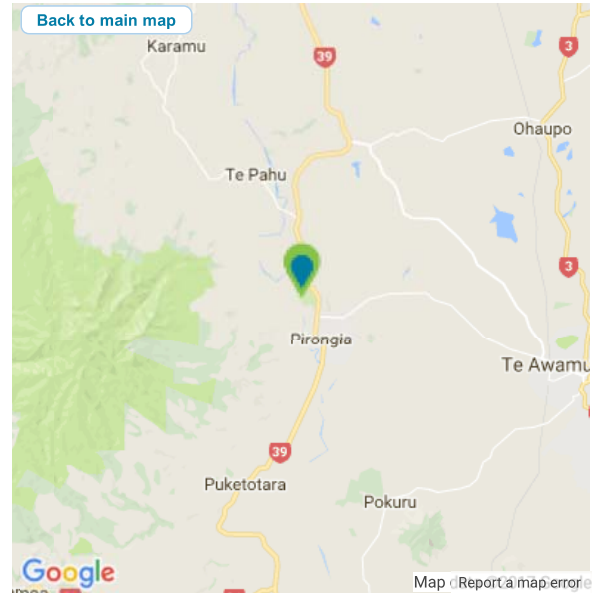

Objectives of the project include providing visitor access via a network of tracks and interpretive signage.

Fencing and planting the riparian margins of the Waipa River and Mangapiko Stream, will help restore wetland areas within the floodway's which have been drained for agriculture. There will also be management of pests and weeds.

The project also involves restoration of sections of the Pa that have been disturbed.

This project has been funded by the Waikato River Authority (WRA 11-114)
