This is the latest in a number of individual stages for the Te Awa River Ride undertaking and this particular project involves the link between the Avantidrome and Cambridge.

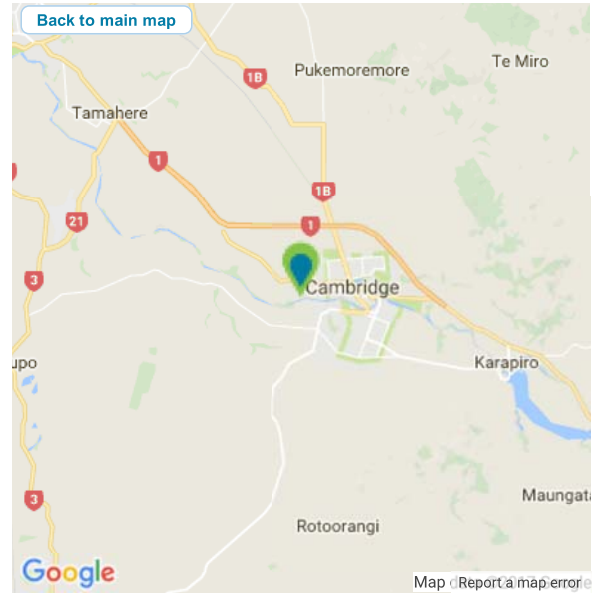

This projects continues the work that has been completed south of Horotiu and between Cambridge and Karapiro.

The project provides significant river access and connectivity.

A key part of the project is planting and beautification of the river margins where the cycle way is being constructed.

This project is funded by the Waikato River Authority (WRA 13-039).
