To establish an award in the Ballance Farm Awards for the Waikato River Authority to recognise their funding efforts

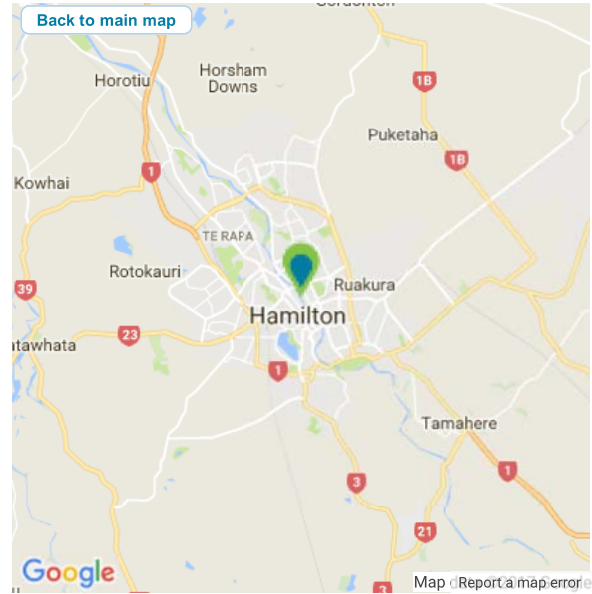

The project resulted in a Waikato River Authority award in the 2013 Waikato Ballance Farm Environment Awards.

This was a regional specific award and complimented the awards made by national sponsors and the Waikato Regional Council. The specific outcome will be that the WRA will be associated with a national awards programme promoting sustainable profitable farming.

The scope is to recognise a farmer entrant who is contributing to sound environmental practices which enhance water quality of the Waikato River and its catchment areas.

The project received funding from the Waikato River Authority (WRA 11-049)
