

# Additional changes to plan change (post 21 April Agenda)

28 April 2016

## **Background and Explanation (pg 98-99)**

More detail added

## **Objective 6 Whangamarino Wetland (pg 105)**

New wording: Whangamarino wetland and catchment is restored and protected to sustain the full range of healthy wetland types and achieve the limits and targets in Schedule 2.

## **Principle reasons for adopting objectives 1- 6 (pg 106, para 2)**

Edited wording: In future a property level allocation of contaminant discharges may be required, plan change 1 sets out getting the required information so that an appropriate determination can be made. Land use type or intensity at July 2016 is not expected to be the basis for allocation.

## **Policy 3 Providing for adaption and change in commercial vegetable production systems (pg 107)**

Feedback provided and more work to be done on drafting (this includes rules as well)

## **Policy 8 Point sources (pg 108)**

Feedback provided and more work to be done on drafting

## **Policy 11 Whangamarino Wetland (pg 109)**

New wording: Protecting and enhancing the values of Whangamarino wetland by:

- a. Preventing further loss in area and degradation of the bog type ecosystems
- b. Providing a source for mahinga kai for the people of the rohe
- c. Restoring and protecting water quality in freshwater bodies in the catchment of Whangamarino wetland

## **Policy 13 Staged approach (pg 109)**

Drafting instructions provided

## **3.11.4.13 Wetlands (pg 112)**

Moved into the other relevant methods sections

## **Items requiring guidance/decision from CSG**

- How to refer to the tables in Schedule 1 (Clarify what is meant by limit, target and objective)
- Consent duration
- Whangamarino provisions
