

Protect the coastline and oceans we all love

Free Marine Biosecurity Kit available for schools

Bring the importance of protecting Aotearoa New Zealand's marine environment into your classroom.

This kit includes fun, simple activities and three online modules you can run yourself — perfect for classes exploring ecosystems, the moana or biosecurity.

What's included

- Ready-to-use teaching resources and activities
- Practical equipment for hands-on learning
- Real-world, place-based lesson ideas

Why teachers love it

- Aligned with the New Zealand Curriculum
- Connects learning to local environments and issues
- Builds student knowledge, skills and confidence

Book the Marine Biosecurity Kit and a wide range of other free education resources via your Enviroschools facilitator or the Waikato Regional Council Education Resource Hub.

Book yours any time at **waikatoregion.govt.nz/resources-for-teachers**
